Arsen'ev, A. A. *An example of a Kubo-Martin-Schwinger state for a nonlinear classical Poisson system with infinite-dimensional phase space* 103

Baranovskiĭ, F. T. *A mixed boundary value problem for a hyperbolic equation with degenerate principal part* 499

Degtjar', P. V. *Some questions in the value distribution theory of holomorphic mappings, and complex variations* 275

Dezin, A. A. *Degenerate operator equations* 287

Drenski, V. S. *Representations of the symmetric group and varieties of linear algebras* 85

Evdokimov, S. A. *A basis of eigenfunctions of Hecke operators in the theory of modular forms of genus n* 299

———. *Letter to the Editor* 322

Farber, M. Š. *Classification of stable fibered knots* 199

Feĭzullaev, R. B. *Characterizability of pairs of complex normed spaces* 395

Fomenko, A. T. *On symplectic structures and integrable systems on symmetric spaces* 235

Fursikov, A. V. *Control problems and theorems concerning the unique solvability of a mixed boundary value problem for the three-dimensional Navier-Stokes and Euler equations* 251

Gal'čuk, L. I. *Decomposition of optional supermartingales* 145

Gončar, A. A. *Poles of rows of the Padé table and meromorphic continuation of functions* 527

Jakymiv, A. L. *Multidimensional Tauberian theorems and their application to Bellman-Harris branching processes* 413

Kazarjan, G. G. See Margarjan, V. N.

Korobeĭnik, Ju. F. *Boundary properties of analytic solutions of differential equations of infinite order* 323

Margarjan, V. N. and Kazarjan, G. G. *On the functional dimension of the solution space of hypoelliptic equations* 547

Medvedev, Ju. A. *Cross varieties of algebras* 347

Meĭrmanov, A. M. *On a problem with free boundary for parabolic equations* 473

Ovčinnikov, V. I. *On estimates of interpolation orbits* 573

Parfenov, O. G. *Asymptotics of singular numbers of imbedding operators for certain classes of analytic functions* 563

Pčelincev, S. V. *Varieties of algebras that are solvable of index 2* 159

Pjatnickiĭ, A. L. *On the limit behavior of the domain of dependence of a hyperbolic equation with rapidly oscillating coefficients* 117

———. *A scattering problem in laminar media* 427

Romanovskiĭ, A. V. *Simple groups with large Sylow subgroups* 377

Sevost'janova, E. V. *An asymptotic expansion of the solution of a second order elliptic equation with periodic rapidly oscillating coefficients* 181

Šidlovskiĭ, A. B. *On estimates for polynomials in values of E-functions* 1

Širinbekov, M. *On Hartogs compacts of holomorphy* 403

Smirnov, V. A. *On the cochain complex of topological spaces* 133

Suleĭmanov, N. M. *Theorems of Wiman-Valiron type for solutions of parabolic equations* 63

Švedov, A. S. *Coconvex approximation of functions of several variables by polynomials* 515

Talaljan, A. A. *On approximation properties of certain incomplete systems* 443

Tamrazov, P. M. *Capacities of condensers. The method of mixing signed measures* 33
